NZ-L-03	Daily Mail — Prince Andrew: 'A Secret Deal on Behalf of Friends'	Published article 20 May 2016	Daily Mail. Written by Guy Adams. Published 20 May 2016. Public domain.	Published investigative article containing the primary documentary evidence of direct personal contact between Andrew and Rakishev. Key exhibit: the email of 14 April 2011, reproduced in full as a photograph, signed 'A. HRH The Duke of York KG', addressed 'Dear Kenes', sent from Andrew's private Unitech-hosted email account. The Palace initially claimed the email was a forgery, then instructed Harbottle & Lewis to block publication on privacy grounds. Both positions failed. The email establishes direct personal contact. It is the foundation of the Andrew/Rakishev thread.
NZ-L-03a	The Andrew/Rakishev Email — 14 April 2011	Original email 14 April 2011 Published 20 May 2016	Scanned image of original email as published by the Daily Mail 20 May 2016. Buckingham Palace initially claimed forgery, then instructed Harbottle & Lewis to block publication on privacy grounds. Both positions failed. Public domain.	The primary document establishing direct personal contact between Andrew Mountbatten-Windsor and Kenes Rakishev. Sent 14 April 2011 at 14:57. Subject: 'Our call.' Opens: 'Dear Kenes.' Signed: 'A. HRH The Duke of York KG.' Sent from Andrew's private Unitech-hosted email account — not a UK government address. Instructs his Private Secretary Amanda Thirsk to connect Rakishev with the Deputy Head of

				Kazakhstan's Prime Minister's office. Describes the consortium as 'we' — placing Andrew inside the business arrangement, not as a neutral facilitator. This is the direct personal link between the Duke of York and Kenes Rakishev — the controlling shareholder of Oxus Acquisition Corp, whose director gave false sworn evidence in the English High Court eleven days after the Oxus Nasdaq launch. One document. One signature. Unambiguous.
NZ-L-04	Epstein Files — EFTA00760183	<i>Federal discovery document 20 April 2010</i>	US federal discovery — Epstein investigation. Released January 2025. Public domain.	Email from David Stern to Jeffrey Epstein dated 20 April 2010, subject: 'Business Week: U.K.'s Prince Andrew to Help Kazakh Companies Find Investors.' Forwards Bloomberg article reporting Andrew's fourth official trade visit to Kazakhstan, his meeting with head of Samruk-Kazyna sovereign wealth fund (which controlled BTA Bank — subsequently acquired by Rakishev in 2014), and his offer to organise meetings between British investors and Kazakh companies. Establishes that Epstein was actively monitoring Andrew's Kazakhstan dealings one year before the April 2011 email to Rakishev. Andrew was arrested on 19 February 2026 on suspicion of misconduct in public office during his tenure as UK Special Representative for International Trade and Investment. The question of what Kazakhstan documents passed through the Stern channel to Epstein has never been publicly examined.
NZ-L-04a	BBC News — The Third Man Who Links Andrew with Jeffrey Epstein	<i>Published article 28 February 2026</i>	BBC News. Written by Ben King, Business Reporter. Published 28 February 2026. Public domain.	Investigative article published following the DOJ release of Epstein files. Key confirmed facts: (1) David Stern appears in more than 7,000 of the DOJ's released files spanning 2008 to 2018; (2) Stern ran Asia Gateway Ltd, registered at 81 Fulham Road, London SW3 6RD; (3) Stern became a director of Pitch@Palace in 2016 and was appointed to the board of St George's House — a royal charity based at Windsor Castle; (4) Stern called Epstein 'boss', 'my mentor', and 'my general'; (5) Epstein introduced Stern to Andrew and Ferguson; (6) In 2011: 'I stay in the background/hidden, just make the arrangements'; (7) Stern resigned from Pitch@Palace weeks after Epstein's arrest in 2019. Establishes Stern's identity and his structural role as the hidden intermediary between Andrew and Epstein over a decade.
NZ-L-04b	Guardian — 'I Am Always on Your Team!!' How Andrew's Aide Kept Close Ties with Epstein	<i>Published article 6 February 2026</i>	The Guardian. Written by Daniel Boffey, Chief Reporter. Published 6 February 2026. Public domain.	The most detailed published account of the Stern/Andrew/Epstein triangle. Key confirmed facts from DOJ files: (1) April 2016 — Epstein asked Stern to host his 26-year-old Belarusian girlfriend Karyna Shuliak at Buckingham Palace; Stern arranged palace access and lunch; Stern to Epstein: 'My pleasure. I am always on your team!!'; (2) Stern proposed a private investment office — 'very discreetly make Mountbatten-Windsor part of it and use his aura and access'; Andrew suggested Stern could be 'a Ghost for me in the up side of this entity'; (3) February 2011 — Stern named his UK company 'Witan' after the

				Anglo-Saxon royal council: 'PA likes it and since he did not know what it was when I told him it should be safe'; (4) Stern controlled Andrew's diary on Epstein's instructions — June 2013: 'PA in Silicon Valley on 25 & 26 June. Anyone you want him to see?'; (5) November 2015 — Stern arranged for Andrew to text Jes Staley, newly appointed CEO of Barclays, at Epstein's instruction; (6) September 2010 — Nigeria oil deal: 'PA has asked me to see a guy who has access to Nigeria oil and when selling it to China F can make around \$6m. This seems very fishy'; (7) February 2018 — 'Today in Tokyo with PA' — eight years after Andrew claimed he cut contact with Epstein in 2010. CRITICAL: Andrew was arrested on 19 February 2026 on suspicion of misconduct in public office during his tenure as UK Special Representative for International Trade and Investment. The Stern emails show Stern was forwarding Kazakhstan intelligence to Epstein in April 2010 — one year before Andrew's direct email to Rakishev. The question of what Kazakhstan documents passed through the Stern channel has never been publicly examined.

Public domain.	141-page transcript of testimony by Devon Archer — Hunter Biden's primary business partner — before the House Oversight Committee. Contains 12 Rakishev mentions. Key confirmed facts under oath: (1) Rakishev attended the spring 2014 Café Milano dinner with VP Joe Biden, Hunter Biden, Karim Massimov, and Yelena Baturina — 'He had dinner, yeah'; (2) Novatus Holdings, associated with Rakishev, wired \$142,300 to Rosemont Seneca Bohai on 22 April 2014; (3) The next day the same amount was wired to a New Jersey car dealership for a sports car for Hunter Biden; (4) When asked why Rakishev bought the car: 'I don't know why.' Formal congressional findings: (1) 5 February 2014 — Hunter Biden met Rakishev at Hay Adams Hotel, Washington DC; Rakishev requested Secretary of State John Kerry visit Kazakhstan; (2) 22 April 2014 — Rakishev wired \$142,300 through Novatus Holdings via Latvian ABLV Bank to Rosemont Seneca Bohai; (3) Next day wired to New Jersey car dealership; (4) Spring 2014 and 2015 — VP Biden dined with Rakishev, Massimov, Baturina, Hunter Biden and Archer at Café Milano; (5) Committee identified \$142,300 that benefitted the Biden family from this Kazakhstani source; (6) ABLV Bank subsequently found by US FinCEN to be a primary money laundering concern.

NZ-L-07	US Docket — City of Almaty & BTA Bank v Felix Sater (SDNY 19-cv-2645) — Two Filings	<i>Federal court filings US429: 30 Sep 2022 US433: 18 Oct 2022</i>	US District Court, Southern District of New York. Public PACER record. Both documents publicly available.	Two documents from the live SDNY federal docket selected for maximum journalistic relevance. US429 — Sater's Opposition to Plaintiff's Motion for Protective Order, 30 September 2022, 11 pages: sets out the six topics Sater sought to depose Rakishev on, including his relationships with Biden, Putin, Kadyrov, and Massimov; references the 'now-infamous photograph' of Massimov, Rakishev, VP Biden and Hunter Biden at Café Milano; footnote references the Independent newspaper article on Andrew's role as Kazakhstan fixer; identifies Greenberg Traurig's dual role. US433 — Court Order by Magistrate Judge Katharine H. Parker, 18 October 2022, 11 pages: GRANTS protective order precluding Rakishev's deposition; key judicial finding: 'Rakishev is unlikely to have any personal knowledge relevant to the claims and defences'; Rakishev was never placed under oath in any jurisdiction. The two documents together establish: (1) what questions were asked; (2) the judicial act that prevented them being answered.

NZ-L-09	JR Statement — Undetermined Matters (AC-2025-LON-004293)	<i>Public court filing 23 February 2026</i>	Filed in Administrative Court AC-2025-LON-004293. CE-File public record. GitHub archive: github.com/nadiazahmoul/JR-Zahmoul-v-SSJ-HMCTS-Archive	Public court document filed in live judicial review proceedings. Names Rakishev explicitly as 'the controlling shareholder of Oxus Acquisition Corp (NASDAQ: OXUS), the entity whose financial representations lie at the centre of the undetermined matters in this Judicial Review.' Connects Rakishev directly to Andrew Mountbatten-Windsor — arrested on 19 February 2026 on suspicion of misconduct in public office — in a filed public court document. States: 'The JR was the only domestic public law mechanism by which this nexus could have been examined. It was dismissed without engagement.' This document transforms the story from confidential family proceedings into a public constitutional question. Journalists can quote it directly as a matter of public record.
NZ-L-10	Affidavit in Support of Contempt Application N600	<i>Sworn court document 18 October 2024</i>	Sworn affidavit filed by Nadia Zahmoul in High Court proceedings BV20D01752. Sealed court document.	Sworn affidavit filed in support of the contempt application dated 18 October 2024. Contains the most precise statement of the perjury allegation in any document in this package: sworn ES2 dated 19 February 2024 declared Oxus shares at \$0; Campbell KC made three oral false submissions on 19, 26, and 28 February 2024; respondent directed his legal team to ignore solicitors' emails of 29 February, 4 and 6 March 2024 seeking explanation. Identifies SEC Regulation S-K disclosure obligations as the applicable standard. States the perjury allegation under Perjury Act 1911 s.1 precisely. As a sworn court document, it carries the highest evidential weight in this package. NOTE: Journalists should seek independent legal advice before publishing directly from this document.

NZ-L-11	Suppression of Oxus SPAC and Association with Rakishev	<i>Analytical document 2024</i>	Authored by Nadia Zahmoul. Grounded in SEC primary filings, judgment text, solicitors' correspondence, and sworn evidence. All sources identified within the document.	Analytical document identifying the suppression mechanism across the judgment and subsequent decisions. Key analytical value: (1) Identifies Marc Holtzman — former Vice Chairman of Barclays Capital, former Chairman of Kazkommertsbank Kazakhstan — as the documented connector between Zahmoul and Rakishev; this explains how a French-Tunisian investment banker with no prior Kazakhstan connections entered the Rakishev network; (2) Analyses judgment paragraphs 5, 8, 76 and 93 — the only four paragraphs referencing Oxus — showing what each suppresses; (3) Reproduces the solicitors' emails of 28 February and 4 March 2024 demanding explanation from Zahmoul's legal team — no reply was received; (4) Identifies the Campbell KC false submissions in their precise context. Note: contains the author's analytical conclusions as well as primary source material.
NZ-L-12	Hunter Biden Laptop Report — Kazakhstan Section	<i>Published report excerpt</i>	Published report on the Hunter Biden laptop. Public domain.	Extract from the published report on the Hunter Biden laptop covering the Kazakhstan section. Key findings: (1) identifies Rakishev as acting as unregistered agent for the Kazakh oligarchy alongside Massimov; (2) identifies Marc Holtzman — former Vice Chairman of Barclays Capital, former Chairman of Kazkommertsbank — as coordinating the meetings between Hunter Biden and the Kazakhstan network; (3) identifies Hunter Biden's two-category role: acting as unregistered agent for Rakishev and Massimov, and attempting to broker a Burisma/CNOOC deal using Kazakhstan energy reserves; (4) confirms Massimov charged with treason January 2022. The Holtzman identification is the critical thread — he is the same Marc Holtzman who connected Zahmoul to Rakishev and who appears in the Oxus SEC filings.
