Dear Mr Brown,

This email contains a short briefing, the document index, and the primary source materials. The briefing addresses the central question of Andrew Mountbatten-Windsor's financial relationship with Kenes Rakishev, the Oxus and Tavia SPAC structures, and the SEC regulatory position. It incorporates a section on David Stern as the documented intermediary between Andrew and Epstein, drawn directly from the DOJ Epstein files.

The document index covers all nineteen exhibits with a full description of each document, its source, and its evidential significance.

- The Oxus SEC materials (NZ-L-08, NZ-L-08a, NZ-L-08b) are the primary source documents for the 34-day sequence described in the briefing. Every figure — the \$565,000 value confirmed on 16 January 2024, the Business Combination closing on 7 February 2024, the Nasdaq launch on 8 February 2024, and the \$0 declared under oath on 19 February 2024 — is independently verifiable at SEC EDGAR CIK 1852973.
- NZ-L-01 is the 35-page confidential memorandum transmitted to MacDonald J on 8 and 9 April 2024 during the reserved judgment period. It documents the Rakishev network, the Oxus perjury, the Kadyrov/Arlan MRAP connection, and the Hunter Biden wire transfer. The judgment of 18 April 2024 is entirely silent on the matter of Oxus false representation and perjury.
- NZ-L-09 is the statement filed in public judicial review proceedings on 23 February 2026. It names Rakishev explicitly as the controlling shareholder of Oxus in a public court filing. It may be cited and reported on freely as a matter of public record.

Two further emails follow with the remaining exhibits.

Yours sincerely,

Nadia Zahmoul
