A1 CATALOGUE — SOURCE AND PROVENANCE

This catalogue is compiled from the contemporaneous attendance notes of the final hearing in BV20D01752 (Days 1 to 6, 19 to 28 February 2024), held on the file of the Applicant's then solicitors of record (AFP Bloom Solicitors). The attendance notes are the primary source until the official transcripts are produced. An application for the seven trial transcripts at public expense is being pursued separately. When the official transcripts are produced, this catalogue will be updated with the precise transcript page references.

This catalogue identifies 25 in-trial references. The Supplementary Criminal Referral of 30 April 2026 (CCR-6501-26-0100-000) identified a minimum of 22. Three further references have been identified on subsequent re-reading of the attendance notes: a Day 2 judicial confirmation, on the open record, that the trial judge had read the Applicant's s25 statement and all bundle material (including the abuse evidence the Applicant filed personally); a Day 3 judicial intervention halting cross-examination on Cigna health insurance compliance; and a joint counsel and judicial accommodation modifying the standard cross-examination rule on the opening of Day 3. Additional in-trial references may continue to be identified as the attendance notes are re-read. The official transcripts, when produced, will permit a definitive count.

THE 25 IN-TRIAL REFERENCES

Each row identifies one in-trial reference to the Applicant's autism, PTSD, vulnerability, processing difficulty, or the participation measures in operation. Where a verbatim quote is recorded in the attendance notes, it is set out in *italics*. Where the reference is a recorded

action (a break ordered for the Applicant; an accepted accommodation; a judicial intervention managing the Applicant's processing under cross-examination), the action is described.

J explicitly directing NZ on how she must engage with the questioning.	<i>"I need to come to a considered decision at the end of this trial, I need to understand for myself what you live and breathe. J expressly confirming on the open record that he had read the Applicant's s25 statement and all bundle material — including the	<i>"I should have made clearer, I have had the opportunity to read everything in the bundle. 14	Day 3	ACKC + BMKC + MacDonald J (agreed at the bar)	Opening of Day 3. Both counsel agreed, and the judge approved, a modification of the standard cross-examination rule requiring every point to be put to the witness. The modification was made because of the volume of evidence and the time required if every point were put. The	ACKC: " <i>Before I continue before cross examination, at the bar we have reached a conclusion... BM won't make any objection, if I make reference to the statement without putting each point to NZ because we would be here forever, not going to put any further points on the non-disclosure.</i> " — J:

BMKC putting NZ's autistic communication need for transparency directly to the witness.	<i>"Nadia you know is someone who values transparency and feels the need not to be misled or feel that things are being hidden from her, these proceedings particularly in relation to Topanga have triggered her and made it hard for her to believe anything said."</i>
17	Day 4	BMKC (NZ counsel)	Cross-examination of KZ continued. BMKC summarising NZ's documented psychological profile.	<i>"A fair summary is that Nadia is someone who deals badly with being misled but you don't feel you are someone who misled her."</i>
18	Day 4	BMKC (NZ counsel)	Cross-examination of KZ on Prof Libby letter (12 July 2022) exhibited to KZ's own statement, confirming PTSD diagnosis.	<i>"At 2164, there is a letter from Professor Libby that you exhibit to one of your statements... 'I write in some urgency... I am treating symptoms of PTSD'."</i>

19	Day 4	BMKC (NZ counsel)	Cross-examination of KZ. BMKC putting to KZ that NZ's vulnerability was known and the proceedings would predictably trigger her PTSD.	<i>"I want to put to you that you present as if this PTSD is sprung on you as a device, you knew Nadia is someone who had been unwell and the proceedings would trigger her."</i>
20	Day 4	ACKC (KZ counsel)	During cross-examination of KZ. ACKC accepting (without objection) the need for support arrangements for NZ in court.	<i>"I have no objection to NZ being supported if she needs that."</i>

25	Day 4	KZ (Respondent, sworn)	Re-examination. KZ accepting that NZ's PTSD was longstanding and that he had been concerned about her mental state during the marriage.	<i>"I told them 17 Feb 2022. We left, I lived with her from March 13 in London to June to the US. She asked me to look for apartments in LA, then we bought the house in Wyoming and borrowed 5.98 million dollars, I asked her not to get divorced." (in answer to question whether KZ believed NZ had PTSD)</i>

NOTE ON THE DOCUMENTARY RECORD

The final judgment of 18 April 2024 ([2024] EWFC 79) runs to 111 paragraphs. A word search of the judgment returns zero occurrences of: autism, autistic, PTSD, post-traumatic, disability, disabled, vulnerable, vulnerability, mental health, Part 3A, participation measure, trauma, or psychiatric (in relation to the Applicant).

Paragraph 64 of the same judgment describes the Applicant's presentation in the witness box as bordering on "the concerning" and characterises her as "obsessed". The same paragraph contains the only judicial reference to her presentation in the witness box across the 111 paragraphs.

The contradiction between the trial record (set out in this catalogue) and the judgment record is the documentary fact this catalogue places on the record.
