Dear Justice Committee,

This is my 11th submission. I write to place the consolidated position on the parliamentary record.

I am a disabled, autistic litigant in person with diagnosed PTSD. I have no legal representation, no income, and £89 in my bank account. A decree absolute has been granted and is being appealed. I have not received a single penny from the settlement.

I now face three separate debt claims arising from the same family proceedings — proceedings where my statutory participation measures were revoked without order, hearing, or reasons:

1. Detach Lending Limited v Zahmoul (BL-2024-001217) — approximately £1.1 million. Litigation funding loan. Hearing vacated 12 March 2026. Debt accruing at £281.38 per day.
2. Withers LLP v Zahmoul (N08YX064) — £128,218.15. Former solicitors' fees. Default judgment entered 8 April 2026. I did not receive the claim form. Service challenge filed today.
3. GLD costs (AC-2025-LON-004293) — £3,125.50. Costs of a judicial review that was refused on grounds that do not correspond to the claim as pleaded.

Total exposure: over £1.2 million.

These debts arise from proceedings in which:

- The trial judge made zero references to autism or PTSD in a 111-paragraph judgment despite 22 references in oral evidence.
- Participation measures were revoked post-trial without order, hearing, or reasons.
- Perjury was committed under oath on 19 February 2024 and was not examined in the judgment.
- The trial audio recording has been reported as corrupted by the transcription company (Marten Walsh Cherer, 15 April 2026).
- A criminal referral has been filed across six police channels over 26 days with seven reference numbers and zero officer allocation.

- A recusal application has been filed and undetermined for 14 months.
- The judicial review was refused on grounds that do not correspond to the claim. Ground 7 was not addressed. The CPR 3.1(7) application has been sealed for 34 days without determination.
- 61 formal submissions have been filed across 175 days. 28 received no response.
- 10 submissions to this Committee. Zero engagement.

The fragmentation ends here. This is one case. These are consequences of one set of proceedings. The pattern is documented, timestamped, and publicly archived.

I ask the Committee once more: is this how the justice system is intended to operate for a disabled litigant in person?
