KEY FINDING: Of 61 formal submissions made between October 2025 and April 2026 — across courts, Parliament, police, the Lord Chancellor, and regulatory bodies — 26 received no response at all (43%), 14 received procedural acknowledgement only, 14 received substantively deficient responses that did not engage with the question asked, and 6 were deflected or refused jurisdiction. One institution — the PHSO — accepted the complaint without deflection. No institution has answered the binary question at the centre of all proceedings: does an identifiable judicial order revoking the Claimant’s statutory participation measures exist?

This document is submitted in support of a request for urgent and expeditious determination of the matters set out in CPR 3.1(7) application sealed 12 March 2026 (AC-2025-LON-004293), and in support of the N244 expedition application filed 9 April 2026. It is also submitted to the Justice Committee as part of a formal request for parliamentary scrutiny of the institutional response to these proceedings. The pattern documented above is not a matter of interpretation — it is a timestamped, verifiable record of every submission made and every response received across 175 days, six courts and tribunals, three police channels, two parliamentary committees, two regulatory bodies, and the Lord Chancellor's office. The binary question remains unanswered.
