Re: Mrs Nadia Zahmoul D.O.B: 28.04.1969

Dear Sir/Madam,

I am writing to inform the Court that Mrs Zahmoul is currently under the care of myself and my team, the South Kensington and Chelsea Community Mental Health Team (CMHT), since December 2025, due to her experience of a mental health crisis in early 2025. Mrs Zahmoul has been experiencing significant levels of psychomotor agitation and poor sleep, which have been exacerbated by the stress of her current court case. Specifically, she reports great difficulty processing certain aspects of the proceedings, particularly regarding the evidence presented to her that she perceives as untrue.

In light of these challenges, we are providing her with intensive support to help her manage her difficulties, with the aim of ensuring she is well enough to attend the court hearings. We are committed to supporting her in this regard and hope to help her navigate this difficult time in a way that respects her mental health needs.

Nadia has completed an assessment by specialised autism services and was given the diagnosis of autism spectrum disorder in June 2025. She also has a co-morbid diagnosis of PTSD. It is possible that these factors may influence how she perceives and processes the information provided during the court proceedings.

Given these circumstances, we would like to inquire if there is an advocacy service or any other appropriate support that could be made available to assist her in hearing and giving evidence at the hearing. Such support could ensure that she is able to fully engage with the proceedings in a manner that is fair and conducive to her well-being.

Thank you for your understanding and attention to this matter. Should you require any further information or clarification, please do not hesitate to contact me.

Yours faithfully,

Dr Omar Shoukry

Speciality Doctor in General Adult Psychiatry
