A4 — Aggregate MIPO Tag Counts — Administrative Court

Tag	Meaning	Instances in JR
WILFUL-NEGLECT	Known duty; failure to perform; no explanation	9
RECKLESS-INDIFF	Incapacity evidence received; no accommodation	8
REASONS-REFUSED	Decision made; reasons required; none given	5
PARTICIPATION-DENIED	Knew W could not participate; proceeded anyway	10
INSTITUTIONAL-DEFLECT	Deflected to another body to avoid engaging	9
ABUSE-OF-PROCESS	Used procedural mechanism to deny engagement	4

The Pattern is Identical in Both Proceedings

BV20D01752 (379 records): Issue raised, evidence submitted, route engaged, no determination. Court proceeds knowing claimant cannot participate.

AC-2025-LON-004293 (156 days): Issue raised, evidence submitted, route engaged, no determination. Court proceeds knowing claimant cannot participate.

The JR was brought to break the pattern. Instead the pattern reproduced itself inside the JR. The binary questions raised in October 2025 remain unanswered in March 2026.

PART C — FIVE BINARY QUESTIONS: UNANSWERED ACROSS ALL PROCEEDINGS

These five questions have been placed before the Administrative Court, the Family Division, HMCTS, the Ministry of Justice, Parliament, and the police. No institution has answered any of them.

#	Binary Question	If Yes	If No

	judicial act directing withdrawal of Part 3A participation measures after 28 February 2024?		Withdrawal was unlawful.
Q2	Did any court determine whether the sworn Oxus representation of \$0 on 22 February 2024 was true or false?	Identify the judgment paragraph.	Perjury never addressed. Order rests on false evidence.
Q3	Is there an identifiable judicial act determining the custody, review, or evidential status of the Imerman devices?	Identify it.	Devices handled without judicial oversight. Chain of custody broken.
Q4	Was W MPS enforcement application of 2 May 2024 determined before arrears were extinguished by para 34 of the final order?	Identify the determination.	Enforcement application absorbed without adjudication.
Q5	Has any court or institution identified the administrative mechanism by which Part 3A participation measures cease after a trial concludes?	Identify it.	No mechanism exists. The disappearance was unlawful.

CONCLUSION

This referral asks the Metropolitan Police Service to bring the conduct of the Administrative Court in AC-2025-LON-004293 under the same investigative scrutiny as the family court conduct in BV20D01752.

The same six MIPO categories fire across both sets of proceedings. The same binary questions were asked in both. Neither has been answered. The institutional deflection that characterised the family proceedings has reproduced itself in identical form in the JR that was brought to correct it.

A person with diagnosed Autism Spectrum Condition and PTSD, formally recognised as vulnerable by a High Court judge, whose NHS clinicians wrote to courts on multiple occasions, hospitalised three times in 2025 with crises causally linked to legal proceedings, has been told by every institution: *wrong route, too difficult to follow, totally without merit.*
