Subject: Criminal Referral — CCR-6501-26-0100-000 — Status Update Required

Dear Metropolitan Police,

I write to request an urgent status update on my criminal referral.

The position is as follows:

- CCR-6501-26-0100-000 was generated on 20 March 2026 following my online submission. CRIB has confirmed it cannot access this reference (Debbie Corbett, 10 April 2026).
- CRN 01/7340002/26 was obtained in person at Charing Cross Police Station on 24 March 2026. CRIB has confirmed this reference relates to a different person on a different day (Debbie Corbett, 10 April 2026).
- CUU-9159-26-0100-002 was submitted via the online portal on 11 April 2026. No substantive response has been received.
- A 522-page complete referral package was submitted to the Commissioner on 30 March 2026. It has not been acknowledged.
- Six separate channels have been attempted since 20 March 2026: online portal (three times), 101, in-person attendance (Charing Cross and Hammersmith), CRIB (bounced), and the Commissioner's office (three automated deflections). Zero officer allocation across all channels.

I require:

- (a) Confirmation that the 522-page referral package submitted 30 March 2026 has been received and is on record.
- (b) A named officer allocated to the referral.
- (c) If neither (a) nor (b) can be provided, a written explanation of why a criminal referral with documented evidence of perjury, misconduct in public office, and money laundering has not been allocated to an officer 25 days after first filing.

This correspondence is copied to the Justice Committee, the NCA Economic Crime Command, and the Lord Chancellor's office for the public record.

Yours faithfully,

Nadia Zahmoul

CCR-6501-26-0100-000

Attachments to this email: none.

Response status as at 4 May 2026: No substantive response received. 20 days elapsed.

Pattern: this is a status-update request to the Commissioner. Three of the previous criminal-referral transmissions to the Commissioner have produced automated deflection responses. None has produced an officer allocation.
