Dear Sirs and Mesdames,

I attach for the public record Statement A — Suppression of Disability Evidence Across

Eight Orders. The document is a horizontal forensic analysis of the systematic and exhaustive suppression of my documented disability across eight orders, judgments, and decisions handed down between 18 April 2024 and 7 May 2026, by six judges across three courts: the Family Division of the High Court, the Court of Appeal Civil Division, and the Administrative Court.

The analytical framework is the framework I set out in my Permission to Appeal application filed at the Court of Appeal on 22 July 2024. That application was refused by Moylan LJ on 23 December 2024. The framework has been on the formal court record for nearly two years.

The mechanism documented in Statement A operates at four discrete levels:

- (a) suppression of evidence that exists on the contemporaneous court record;
- (b) assertion of findings not traceable to identifiable source material within the three primary evidence categories;
- (c) formal judicial finding based on the unsupported characterisation, with contemporaneous knowledge that the asserted characterisation has no foundation in the source categories; and
- (d) publication of the resulting judgment in the National Archives.

The total financial consequence of the Para 64 "obsession" framing across the first two judgments is £1,055,654.50.

Criminal referrals are complex matters. I am seeking legal representation in respect of the matters documented in this analysis.

This document is published on my public archive at <https://github.com/nadiazahmoul/Zahmoul-v-SSJ-HMCTS-Public-Archive> and is distributed to the institutional recipients on the established public-record list.

Yours faithfully,

Nadia Zahmoul
