

PUBLIC NOTICE OF UNRESOLVED MATTERS

Two years after the sealed order and costs judgment of 24 May 2024

Sunday, 24 May 2026

TO: The Rt Hon Sir Stephen Cobb President of the Family Division <i>Head of Family Justice</i> Royal Courts of Justice, Strand, London WC2A 2LL	AND: Commissioner Sir Mark Rowley QPM Metropolitan Police Service <i>Existing criminal referral CCR-6501-26-0100-000</i> New Scotland Yard, Victoria Embankment, London SW1A 2JL
---	--

Copied to the accountability list. Published to the public record archive.

Two years ago today, on 24 May 2024, the Family Division of the High Court sealed a unilateral final order and a costs judgment of £255,654.50 against the Applicant, a litigant in person with diagnosed Autism Spectrum Condition, Post-Traumatic Stress Disorder, and Sjögren’s syndrome. Participation measures under FPR Part 3A had ceased on 28 February 2024 — HMCTS subsequently confirmed by letter of 14 November 2025 that no judicial order recording their revocation exists. The judgment of 18 April 2024, on which the costs order was anchored, contains zero references to disability, autism, PTSD, FPR Part 3A, or participation measures across 19,620 words — despite twenty-five oral references to autism and PTSD recorded on the trial transcript, thirteen of which were made by the trial judge himself.

Two years have elapsed. The matters identified in this Notice were formally raised with the Family Division, HMCTS, the Court of Appeal, the Administrative Court, the Lord Chancellor, the Justice Committee, the Attorney General, and the Metropolitan Police Service. The institutional record — in number of formal submissions, in substantive engagement received, in administrative determinations identified — is set out in the Numbers section below.

The litigant remains without effective access to legal representation or procedural safeguards and is formally classified as an adult at risk under section 42 of the Care Act 2014 by a Metropolitan Police-initiated safeguarding referral of 17 April 2026 (ref 0103/17APR26).

Safeguarding Status

The Applicant is formally classified as an adult at risk under section 42 of the Care Act 2014 by a Metropolitan Police-initiated safeguarding referral of 17 April 2026 (ref 0103/17APR26).

She is under NHS clinical care and the documentary record evidences documented deterioration of physical and mental health across the period covered by this Notice.

The duty-of-candour framework arising from the Hillsborough Independent Panel report — and the principles which animate the Public Authority (Accountability) Bill currently before Parliament — directly engage the position taken by public authorities in the face of documented harm to an adult at risk.

THE SEVEN UNRESOLVED QUESTIONS

The litigant has formally raised the following seven matters with the Family Division and the wider institutional accountability list across a period of between fifteen months and two years. Each matter resolves to a binary question. Each question has two possible answers: either the determination exists, or it does not. There is no third category.

The matters identified engage both judicial-administrative and law-enforcement functions. This Notice is therefore addressed simultaneously to the President of the Family Division and the Commissioner of the Metropolitan Police Service.

Question 1 — Recusal Application

On 10 February 2025 the Applicant filed a formal application for the recusal of Mr Justice MacDonald on grounds of apparent bias and unlawful disability discrimination. The application was re-filed daily through 9 June 2025. As at 24 May 2026, 469 days have elapsed since the application was filed.

QUESTION: Does an identifiable judicial determination of the recusal application exist, by reference to judge, date, order, and reasons — or does it not?

Question 2 — Part 3A Participation Measures Revocation

Part 3A participation measures were ordered for the litigant for the trial of February 2024. The measures ceased on 28 February 2024. HMCTS confirmed by letter of 14 November 2025 that no judicial order recording the revocation exists. As at 24 May 2026, 817 days have elapsed since the measures ceased.

QUESTION: Does an identifiable judicial order revoking the Part 3A participation

measures exist, by reference to judge, date, order, and reasons — or does it not?

Question 3 — Imerman Chain of Custody

Two digital devices were placed in court-supervised Imerman escrow on 16 April 2021 in BV20D01752. As at 24 May 2026, 1,499 days have elapsed. The devices have not been forensically examined. The chain of custody is not documented. The whereabouts are unknown. The Family Division bears a positive administrative custodial duty over devices placed before it under the Imerman principle, and the disclosed party has an established right of review under UL v BK [2013] EWHC 1735.

QUESTION: Does a documented chain of custody of the Imerman devices, and a documented administrative determination of their custody, review, and release, exist — or does it not?

Question 4 — Imerman Device Content

The Applicant has consistently maintained, across formally filed proceedings and direct communications with law enforcement, that the Imerman devices contain material evidencing criminal conduct, including prostitution-enterprise bookkeeping records, cryptocurrency money-laundering structures, and BTC wallet and cluster data. The Applicant has been advised that the matter is under active investigation by IRS Criminal Investigation, New York Field Office (Special Agent Robert McGarry).

QUESTION: Will the Commissioner of the Metropolitan Police Service open the investigation into the matters identified by the Applicant in respect of the Imerman device content under the existing criminal referral file CCR-6501-26-0100-000 — or will the Commissioner confirm in writing that no investigation will be opened, and the reasons?

Question 5 — Oxus Perjury

On 22 February 2024 the Applicant's former husband testified under oath that his 50,000 Oxus Founder Shares had no value (\$0). The SEC Definitive Proxy Statement of 16 January 2024 — 34 days earlier, signed by him — confirmed market value of approximately \$565,000. The Business Combination closed on 7 February 2024. The shares launched on Nasdaq on 8 February 2024. The sworn declaration was made eleven days after the Nasdaq launch. The litigant's D11 contempt application was not

placed before the trial judge following objections raised by opposing counsel on 6 March 2024. The Attorney General was formally referred on 21 May 2025.

QUESTION: Will the Commissioner open the investigation into perjury under the Perjury Act 1911 s.1 under the existing criminal referral file CCR-6501-26-0100-000 — or will the Commissioner confirm in writing that no investigation will be opened, and the reasons?

Question 6 — MPS Arrears and the Para 34 Insertion

On 2 May 2024 at 03:00 the Applicant filed Form D50K — a formal application to enforce the Maintenance Pending Suit order. The application was acknowledged. The fee was paid. The application was not determined. On 3 May 2024, opposing counsel inserted a clause into the draft order retrospectively remitting all MPS arrears. The order was sealed on 24 May 2024 with that clause intact. The D50K application was extinguished without determination, without hearing, without notice. Approximately £50,000 in arrears was extinguished.

QUESTION: Does an identifiable judicial determination of the D50K enforcement application, or the procedural authority under which a live enforcement application was extinguished by retrospective remission without hearing or notice, exist — or does it not?

Question 7 — The Administrative Void

The seven grounds pleaded in the Judicial Review (AC-2025-LON-004293) identify, across the matters formally raised, the absence of any identifiable judicial act. The absence of identifiable judicial acts is itself one of the matters raised within the Judicial Review. The JR was refused TWM on 11 March 2026 without engaging any of the seven pleaded grounds. The CPR 3.1(7) revocation application was refused on 5 May 2026 without engaging the grounds.

QUESTION: Does the Family Division identify the judicial acts that govern the matters formally raised — or does the Family Division confirm in writing that no such judicial acts exist, and that this is the position of record?

THE NUMBERS

Days since the unilateral sealed order and	730 days
--	-----------------

£255,654.50 costs order of 24 May 2024	
Days since the recusal application was filed	469 days
Days since the Imerman devices were placed in escrow without subsequent forensic review	1,499 days
Days since the Part 3A participation measures ceased without identifiable order	817 days
Days since the Oxus perjury referral was filed with the Attorney General	369 days
Days since the MPS criminal referral was filed (CCR-6501-26-0100-000)	65 days
Total formal submissions filed (October 2025 – May 2026)	75+
Substantive institutional engagement received	1 (PHSO)
Statement A distribution of 22 May 2026 — institutional acknowledgements	0 of 46
Total financial consequence of the suppression and “obsession” characterisation	£1,055,654.50
Settlement received under the final order	£0
Bank balance as at 24 May 2026	£85
Care Act s.42 safeguarding referral (MPS-initiated, 17 April 2026)	0103/17APR26

STATUS OF MATTERS

The matters identified in this Notice remain unresolved as at the date of publication.

The litigant intends to continue maintaining a public documentary record of institutional responses and non-responses relevant to the matters identified above. The

documentary record is published on the public archive identified in the Numbers section. Further updates may follow.

Two Years

On 24 May 2024, the Family Division sealed a unilateral final order and a costs judgment of £255,654.50 against a litigant in person whose participation measures had ceased without identifiable order and whose disability evidence was absent from the judgment which carried the financial consequence.

Two years have passed. The matters identified in this Notice were formally raised. One institution (PHSO) has provided substantive engagement. The remainder of the institutional record is set out in the Numbers section above.

The litigant remains without effective access to legal representation or procedural safeguards. She is formally classified as an adult at risk.

The matters remain unresolved.
