Dear Justice Committee,

I am writing to place a formal submission before the Justice Committee and to require a written response.

I am copying the Lord Chancellor, the Rt Hon David Lammy KC MP, as the minister responsible for the administration of justice and HMCTS. I am also copying the Chair of the Justice Committee, Andy Slaughter MP.

My name is Nadia Zahmoul. I am a litigant in person. I have formal diagnoses of Autism Spectrum Condition, Post-Traumatic Stress Disorder, and Sjogren syndrome. I have been managing three concurrent diagnosed conditions without legal representation throughout four parallel High Court proceedings since 2020. I have a BSc in Economics from the London School of Economics and an MBA in Finance from Columbia Business School. I do not have a background in law.

The harm I have experienced began in February 2024. It is ongoing as at the date of this letter. It has been documented across six judicial decisions, four courts, and four jurisdictions. It has been referred to the Metropolitan Police, the Attorney General, the IRS:CI, the SEC, and Action Fraud. It has not been addressed by any institution with the power to address it.

The enclosed submission sets out the full analysis. I draw the Committee's attention to four specific matters that require its urgent attention.

1. First: the Administrative Court refused judicial review permission in AC-2025-LON-004293 on 11 March 2026, certifying the claim as Totally Without Merit. The claim

raised five grounds of administrative failure. The order does not identify a single judicial act governing any of the five grounds. The defendant's own summary grounds did not identify one either. The claim was procedurally foreclosed without its substance ever being addressed. This is unacceptable. The Administrative Court must address this case properly and expeditiously.

2. Second: two of the five JR grounds are of significant public interest — the Oxus perjury ground and the Imerman chain of custody ground. The Oxus ground concerns sworn testimony of \$0 value for shares publicly traded on Nasdaq at approximately \$550,000, by a director of a company controlled by Kenes Rakishev — a Kazakh oligarch with documented connections to Andrew Mountbatten-Windsor, who was arrested on 19 February 2026 on suspicion of misconduct in public office during his tenure as UK Special Representative for International Trade and Investment. The JR was the only domestic public law mechanism by which this nexus could have been examined. It was dismissed without engagement.
3. Third: the originating error in this case — paragraph 64 of EWFC 79, which attributed autistic presentation to obsession and character — has generated financial penalties of £1,055,654.50 against a disabled woman in proceedings where the court ordered, and then silently removed, the participation measures designed to ensure her equal participation. The EA 2010 s.149 Public Sector Equality Duty has never been engaged at any level of the domestic courts in respect of these failures.
4. Fourth: the participation measures ordered for the February 2024 trial ceased without order, without notice, and without reassessment. HMCTS confirmed in its own letter of 14 November 2025 that no judicial order records their revocation. There is an administrative void where a judicial determination should be. No court has addressed it.

I require the following from the Justice Committee:

1. An urgent inquiry into the systemic institutional failures documented in the enclosed submission and logic analysis.
2. Written findings on whether the absence of any identifiable judicial determination of the post-trial participation void is consistent with the constitutional operation of the justice system.
3. Written findings on whether the Administrative Court's refusal of JR permission without identifying the judicial act governing any ground is consistent with the legal distinction between judicial acts and administrative acts.
4. Written findings on whether costs of £3,125.50 against a disabled litigant in person, without recorded EA 2010 s.149 engagement, is consistent with the Public Sector Equality Duty.

5. If the Committee declines to open an inquiry: written reasons.

I am not inviting the Committee to consider these matters at its convenience. The harm is ongoing. The documentation is complete. The logic is sound. I require a substantive written response.

Enclosed:

Series A — Logic Models (six documents, one per decision)
Series B — Complete Forensic Judgment Analysis, Part 1 of 3
Series C — Decision Map (16 decisions, 4 jurisdictions)
Series D — Statement of Key Takeaways and Current Position
Series E: 4 supporting evidence documents (Word)
