Dear all,

Day 4 of the serialised public record in this matter is attached. It places before you a documentary contradiction that can be verified in 60 seconds against the attached record.

During the ten-day final hearing in BV20D01752 (19–28 February 2024), my autism and Post-Traumatic Stress Disorder were referenced at least 25 times during the proceedings, including by the trial judge himself. The 111-paragraph judgment that followed contains no reference to autism, PTSD, disability, vulnerability, participation measures, or mental health.

Paragraph 64 of the judgment replaced the clinical explanation identified during trial with a

moral characterisation. Approximately **£1,055,654.50** in fixed costs, together with an indemnity costs order, have been imposed on the basis of that characterisation. The recusal application brought to challenge the pattern has remained undetermined for 454 days.

The attached catalogue of the 25 in-trial references identifies the speaker, day of trial, context, and verbatim quote where recorded.

Three things are sought:

- First. Production, at public expense, of the transcripts of the final hearing of 19–28 February 2024 and the hearing of 8 May 2025.
- Second. Independent specialist review of the judgments of 18 April 2024 ([2024] EWFC 79), 24 May 2024 ([2024] EWFC 114), and 8 May 2025 against those transcripts and the underlying documentary record.
- Third. Withdrawal of the judgments of 18 April 2024 and 24 May 2024 from the National Archives and BAILII pending that review.

You are not asked to take a position on the litigation. You are placed on notice of a documentary record capable of independent verification against the attached material.

Access to counsel. The matters set out in the attached statement require representation by a public law specialist with experience in disability discrimination, judicial conduct, and institutional accountability.

I have prepared the documentary record underlying Days 1–4 of this serialised public record as a litigant in person, without representation, while facing liabilities exceeding £1 million arising from the proceedings described in the attached statement.

My health has materially deteriorated over the past 27 months and I remain under intensive specialist NHS care. The level of forensic and procedural work required is no longer sustainable without specialist legal support.

The review of the judgments identified in the attached statement, against the underlying trial transcripts and documentary record, now requires specialist counsel. Introductions, recommendations, or expressions of interest from chambers or firms with relevant expertise would be welcomed.

Day 1 (20 April 2026), Day 2 (1 May 2026) and Day 3 (4 May 2026) are available in the public archive: <https://github.com/nadiazahmoul/Zahmoul-v-SSJ-HMCTS-Public-Archive>
