Dear Sir or Madam,

I attach Day 3 of a serialised **public record** relating to BV20D01752 / CA-2024-001342 / **AC-2025-LON-004293** / BL-2024-001217. The document, *Orders Made Without Participation of a Disabled Litigant*, addresses a single procedural question: by what mechanism, and on what authority, were the statutory participation measures the Court itself had ordered for a disabled litigant under FPR Part 3A withdrawn on 7 March 2024, without an order, a hearing, reasons, or notification — and why are the orders made since then procedurally unsafe.

Day 2 of this serialised public record, distributed on 1 May 2026, established the suppression of disability evidence in the judgment record. This statement addresses the procedural consequence of that omission. The accompanying NHS clinical letter from Dr Omar Shoukry of the Central and North West London NHS Foundation Trust, dated 17 April 2026, is contemporaneous evidence that the conditions the original participation directions were intended to accommodate continue to require those adjustments. The accompanying *Five Matters for Determination* document of 20 April 2026 is the procedural anchor identifying the matters formally raised through court, parliamentary, and criminal-referral channels for which no judicial determination has been identified. The accompanying *Accountability Map* of 1 May 2026 identifies every individual and institution placed on actual notice of this record.

Also attached is a one-page document, *Public Record — Days 1 to 7 — Correspondence with Pleadings Grounds of Judicial Review*, setting out where this and the other public-record statements sit within the structure of the live judicial review (**AC-2025-LON-004293**). The five grounds advanced in the Amended Grounds of Claim of 2 January 2026 are reproduced verbatim. No judicial determination has been identified addressing those grounds.

The further days of this serialised public record will follow.

Yours faithfully,

Nadia Zahmoul
Litigant in Person
